AMENDED IN ASSEMBLY APRIL 24, 2003

CALIFORNIA LEGISLATURE—2003–04 REGULAR SESSION

ASSEMBLY BILL

No. 1118

Introduced by Assembly Member Levine

February 21, 2003

An act to add Section ~~5089~~ 5076 to the Vehicle Code, relating to vehicles.

LEGISLATIVE COUNSEL'S DIGEST

AB 1118, as amended, Levine. Vehicles: special interest license plates: animal welfare.

(1) Existing law requires the Department of Motor Vehicles to issue special interest license plates to a person applying for the plates and paying certain fees. The plates contain a distinct design or decal of the participating organization and may be displayed in lieu of regular license plates. Existing law prohibits the department from issuing a special interest license plate until the participating organization has received and submitted to the department not less than 7,500 applications for that particular plate within certain time limitations.

This bill would require the department, in consultation with the Department of the California Highway Patrol, to design and make available for issuance special ~~interest~~ *environmental design* license plates. The bill would require the issuance to be as required under existing law, with a graphic design depicting a dog or a cat, or both a dog and a cat, and would be issued in a combination of numbers or

letters, or both, as requested by the applicant for the plates. The bill would require certain funds generated from the issuance of the special ~~interest~~ *environmental design* license plates to be deposited in the Motor Vehicle Account in the State Transportation Fund. The bill would require the money deposited in the account under these provisions to be allocated by the Controller, upon appropriation by the Legislature, to each county in proportion to the number of plates sold under these provisions in the county during the previous calendar year.

The bill would require a county that receives funds under these provisions to distribute those funds to animal welfare agencies within the county that meet certain requirements, in proportion to the number of animals handled by the agency during the previous calendar year. Because this requirement would impose additional duties upon the county the bill would establish a state-mandated local program.

The bill would prohibit a city or county that receives funds under these provisions from depositing those funds in the city or county general fund and would require the city or county to use those funds to supplement, not supplant, existing funding for specified animal welfare purposes.

The bill would require an agency that receives funds under these provisions to use those funds only for certain animal welfare purposes.

The bill would require agencies that receive funding under these provisions to report to the Controller regarding their use of the money, as specified. The bill *would* require the Controller, if an agency fails to comply with this reporting requirement, to notify the county in which the agency is located, and the county would be required to suspend funding under these provisions for that agency for 5 years from the date upon which notification is received from the Controller. Because this requirement would impose additional duties upon the county the bill would establish a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state,

reimbursement for those costs shall be made pursuant to these statutory provisions.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: yes.

The people of the State of California do enact as follows:
